

Daisy: Santa Barbara (*Erigeron*) | Shasta (*Leucanthemum*) | Aster | Chrysanthemum | Other

OUTDOOR PLANT

Type: Perennial
Sun: Full sun | Part sun
Water: _____
Flowers: _____
Size: _____

The plants we refer to commonly as “daisies” consist of a wide variety of different plants, most of the family *Asteraceae*. Requirements vary by type, but most want full sun or part sun.

Frequently we see Shasta Daisy (*Leucanthemum x superbum*) and Santa Barbara Daisy (*Erigeron karvinskianus*.)
